1. All paint colors are to be Sherwin Williams with flat, eggshell, or satin finish. Existing original Traton color schemes are acceptable and will be added to color scheme list as they are submitted along with Exterior Selection forms.
2. Due to color conflicts with submitted approved photos versus actual “painted on” color schemes, any house painted after the date of this color scheme shall submit an Exterior Selection form showing a color scheme from the above list. IT shall be a violation of the Declaration of Covenants to repaint a house the same color as its current color without having submitted an Exterior Selection form and receiving written approval of the form.

*There are some cases where Traton original colors were offered with different manufacturers. This paint is from the Duron product family of Sherwin Williams. The color codes are different than Sherwin Williams color codes for the same colors. For example: Tavern Taupe 8673D IS NOT the same color as Tavern Taupe SW7508.
